

Natalia Manola is a research associate in Athena Research and Innovation Center and in the University of Athens, Department of Informatics & Telecommunications. She holds a Physics degree from the University of Athens, and an MS in Electrical and Computing Engineering from the University of Wisconsin at Madison. She has several years of employment as a Software Engineer and Architect employed in the Bioinformatics commercial sector. Since 2009 she is the Managing Director of OpenAIRE (www.openaire.eu), a pan European e-Infrastructure supporting open access in all scientific results, and is also involved in the implementation of HELIX Data Services, the Greek e-Infrastructure for research. She has expertise in Open Science policies and implementation, and she currently serves in the EOSC Executive Board and the Open Science Policy Platform, an EC High Level Advisory Groups providing advice about the development and implementation of open science in Europe. Her research interests include the topics of e-Infrastructures for scientific data management (curation and validation, text and data mining) and analytics for research and innovation for policies. Natalia has also served in the EC Future Emerging Technology (FET) Advisory Group (2013-2017).
